 Mammoth Bones 12,000 years old**

It's the bare bones of a beginning, but placer miner Norm Ross hopes the recovery of a mammoth from a claim on Gold Run Creek deposits a good image of the industry in tourism promotions.

The bones of the sub-adult mammoth were unearthed in early August by Miles Johnson, who was stripping the pit in preparation for mining. The claim, in the Klondike gold fields, is owned by Lyle Gatenby and is being worked by Ross Mining Services.

"It's our desire, if we took the time to stake it out and left the area intact to preserve the animal, we'd like to see them take it a step further and do something with it," says Ross.

Spare Ribs - These ribs belonged to a sub-adult mammoth.
