A GRIM DEATH INDEED

Of all the accidents that can befall a person on a boat surely an explosion and fire is one of the worst. Three tons of black powder exploded on the Columbian's forward deck that fateful September day and the resulting fireball was carried the length of the ship by a downstream wind. Everyone in the immediate vicinity of the explosion would die, except for passenger Ernest Winstanley. He would be saved by his long underwear.

The Purser, Lionel Cowper had been burned over his entire body. As was the medical custom at the time of the accident, he had been wrapped in an oily blanket and given strychnine pills. In Whitehorse, when it became obvious that he was going to die, massive amounts of "opiates" were administered, but relief lasted only minutes.

Hamacher photo/Muirhead coll./Yukon Archives.
WRECKAGE of the COLUMBIAN - The charred hull, which was a menace to navigation, was floated downstream a short way and abandoned in "Columbia" slough.

\$9 BILLION PROJECT TO FLOOD CITY

Details of plans of an Eastern Canadian industrial empire to change the entire map north of the B.C. border:

Included in the plans of the giant Frobisher Ltd., for the \$2 billion enterprise - which would dwarf the huge Kitimat and Ungava development - were:

Mammoth dam on Lac Laberge and creation of a lake, 100 to 200 feet deep and covering thousands of square miles.

Moving of the entire town of Whitehorse with its huge Orient route air base.

Relocation of the towns of Carcross and Champagne. (All three centres would be flooded by the artificial lake.)

Changing the route of warborn Alaska highway. Rerouting of the White Pass and Yukon Railway.

Construction of the three big hydro plants in the vicinity of Kluane, Chilkoot Pass and Teslin. Estimated out - 500,000,000 horsepower - makes this the largest integrated power yield in the world.

Creation of a deepsea port on Taku River or north of Haines, Alaska, in Yukon territory.

The Whitehorse Star, March 13, 1953
