TAKHINI SPRINGS

Photographer E.J. Hamacher has favoured us with the following description of the Takhini hot springs, the property of Messrs. W.A. Puckett and S.A. Simmons. The springs are distant from Whitehorse about 30 1/2 miles, 14 to the mouth of the Takhini river, 15 miles up that stream to the springs landing and one and a half miles from the river northward to the springs. The springs are located in a beautiful spot almost level but sloping gently toward the river. The water boils up from a bowl-shaped basin, overflows it at one edge, and runs over the sloping ground until it reaches a deep canyon through which it makes its way toward the river. At the foot of this canyon is a large crescent shaped slough or lake which has an outlet to the river. The volume of water which flows from the spring would fill a six-inch pipe and its deposits below the springs show large quantities of iron and lime. The temperature of the water is about 120 degrees, Fahrenheit.

Telephone Service

The next public improvement to be inaugurated in White Horse will be a telephone system. Already the wires have been strung, the switch boards placed in working order and the receiving instruments will be installed next week. The work now being done is of a private nature, but when completed will in all probability be absorbed and become a part of the Yukon Electrical company. The system being put in is what is known as the Strowger Automatic Telephone, one of the latest and most up-to-date known, by the use of which absolute secrecy is guaranteed to every patron of the line. Each telephone has an automatic sliding dial by turning so that the figures on the dial correspond to a plate beneath. The sender can be automatically connected with any other instrument on the circuit which he may desire. Should the line be in use, connection cannot be made, a knowledge of this being conveyed to the one wishing to use the same by a slight buzzing sound. The Strowger Automatic telephone does away with a receiver at the central office. While a message is being sent the central office is disconnected the same as other phones on the circuit, and there is no danger whatever of any communication which you wish to make being conveyed to disinterested parties. The Strowger Automatic telephone is rapidly replacing companies in the east where central telephone operators are employed, and there is now being formed in Chicago a company with \$5,000,000 capital to put in the system in that city. The rules for the telephone will at the commencement be \$10 per month for business houses and \$5 per month for residences.

THE AIRMEN pose before take-off: left to right; Nicol Galkovsky, Nikola Kastanayev, Sigismund Levanovsky, Grigory Pobezhimov, Nikol Godovikov, and Victor Leveschenko.

THE SIX WHO VANISHED

"Air Aces of three nations comb polar wastes for a trace of missing aviators"

FAIRBANKS, Alaska, August 18 -Top ranking aviators of three nations were poised today on the rim of the Arctic for an intensive search of the polar wastes in quest of the vanished Soviet pilots, Sigismund Levanovsky and his five companions, awaiting better weather at Fairbanks.
