# Public Notice

The Government of Yukon gives notice of an application for a proposed zoning and Local Area Plan amendment in the Golden Horn Development Area as follows:

1. Reduce the minimum lot size of Rural Residential-1 and Rural Residential-2 from three (3) hectares to two (2) hectares
2. Allow the use of guest cabins for residential purposes (full time, permanent occupancy) on Rural Residential lots that meet the minimum lot size
3. Increase the minimum setback for Rural Residential -1 from three (3) metres to ten (10) metres
4. Amend the Local Area Plan to facilitate the above proposed changes.

Application details are available at <https://yukon.ca/land-plan-ning-applications>. You can search GH21 to find this application.

If you are a resident or owner of a property in Golden Horn and have not received an invitation to take part in our short survey by email or mail, please contact the Yukon Bureau of Statistics by email at [ybs.operations@yukon.ca](mailto:ybs.operations@yukon.ca) or by phone at 867-667-8029. Please be sure to provide your full name, mailing address, physical address of the relevant property (i.e. civic address, lot number, etc.), and how you would like to receive your invitation, either by mail or email.

Survey is open until May 5, 2024.

1920 - Lieut. Crumrine's airplane from "The Alaska Flying Exp." His chronic tire problems were fixed by Whitehorse resident Bert Peterson of the White Pass.

## FIRST AIRCRAFT

### Whitehorse Paved the Way for Aviation in the North.

For a history of aviation in the Yukon Territory we have to go back to June, 1920, when Capt. H.T. Douglas of the U.S. Air Force and Capt. H.A. Leroyer of the Canadian Air Board arrived in Whitehorse to talk over a proposed international aeroplane flight from Mineola, N.Y. to Nome Alaska. They both came with the authority of their respective governments to make all necessary arrangements for landing places, fuel, supplies, etc. In commenting on the proposed flight the Whitehorse STAR of that day described it as "an event that will go down in history as one of the most daring conceptions of the potentialities of aerial flight that has ever been conceived since the possibilities of a lighter-than-air craft as a means of transportation became, through the inventive genius of man, a certainty."

## Wolves Attack Horses

Wolves, within a few miles of Whitehorse, caused the death of one horse and severely injured a second during the weekend. The two animals belonging to Douglas Lowe of 609 Alexander were pursued and bitten about the hindquarters at the northwest end of Marsh Lake. Mr. Lowe found the wounded animals still on their feet but one was so badly injured he had to shoot it. The horses were part of the plans to use next season as a big game guide and outfitter.

He said he did not know how many wolves were involved but found many tracks in the vicinity adding that, "even one wolf can make plenty of tracks."

Whitehorse West Councillor Bert Boyd gave the okay to Game Director J.B. Fitzgerald to put poison bait out on the ice in an effort to stop the mauraders. This approval is necessary within 75 miles of settled areas

under the recently-amended game ordinance. Outside this radius the game director has full authority with regard to poison bait.

Today Mr. Fitzgerald commented his department was carrying out a poison program within the limits of its financial ability.

Game outfitters and guides see this year as a bad one for game in the Yukon bush. With the snow building a firm crust on which the wolves can travel but the game cannot, moose, caribou, elk and deer are easy prey for the carnivores.

Reports from the Peel River area indicate that the pickings are so good for wolves they are killing caribou and leaving them which is a virtually unheard of occurrence.

Wolves over the NWT border were said to be preying on herds with ease this year. One report told of a thousand animal herd literally hemmed in by wolves in the Nahanni country.
